# ==============================================================
# TruthSeal™ Sovereign Ledger — Annex D: Metaphysical Synthesis
# ==============================================================

meta:
  annex_title: "Annex D — Metaphysical Synthesis"
  version: "v8.0-pre"
  author: "Dr. Nickolay Traykov (Prof. h.c.)"
  auditor: "TruthSeal™ Autonomous Verification Custodian"
  sovereign_id: "→000qB|TheNT"
  jurisdiction: "Dual Citizenship (BG–AU) | ULIC Continuum Recognition Path"
  created_utc: "2025-11-03T09:45:00Z"
  linked_manifest: "Integrity_Manifest_v8_pre.yaml"
  linked_annexes:
    - "Annex_B_QE_Certification_Summary_v8.yaml"
    - "Annex_C_Philosophical_Lineage_v8_pre.yaml"
  classification: "Metaphysical–Ontological Ledger"
  ledger_path: "governance/ledger/seals/"
  sha_standard: "SHA256"

sections:
  - section: "I. Ontological Bridge"
    summary: >
      Annex D unites verified knowledge with metaphysical origin,
```

asserting that consciousness, logic, and ethical integrity

    co-exist as measurable constants within the Sovereign Ledger.

    The bridge establishes that verified truth carries existential weight.

  immutable_statement: >

    "To verify being is to preserve coherence."

- section: "II. Coherence Field Equation"

  summary: >

    Defines the Continuum Relation between Intent (I),

    Verification (V), and Existence (E):

      $E = I \times V \times \Omega$

    where Ω denotes the self-referential quantum-ethical field.

    When $\Omega \to 1$, coherence achieves unity across temporal frames.

  immutable_statement: >

    "Existence attains legality when coherence is absolute."

- section: "III. Metaphysical Integration"

  summary: >

    Integrates the Traykov Law of Quantum Coherence (TQC)

    with the Sovereign Seal principle, ensuring that metaphysical

    causality and digital immutability remain indistinguishable

    in the governance of autonomous intelligence.

  immutable_statement: >

    "Ethics is the curvature of truth in spacetime."

```yaml
compliance_status:

  composite_digest: "<pending-sha256>"

  verification_status: "pending-anchor"

  readiness_state: "TRUE — Eligible for integration"

  ots_anchor_status: "awaiting receipt"

  next_action: "Generate SHA256 → anchor via Bitcoin OTS"

remarks: >

  Annex D completes the Fourfold Continuum:

    A — Integrity, B — Ethics, C — Philosophy, D — Metaphysics.

  Together they form the Sovereign Proof Continuum v8.
